MOUNTS EASILY
TAPPED ENDS FOR INSIDE MOUNTING
ANGLE BRACKETS FOR SIDE MOUNTING
T-SLOTTED FOR INFINITE SLITTER
HEAD ADJUSTABILITY

Reynolds & Co. has over 50 years of plastic film edge slitting experience and has made numerous product updates to stay abreast the latest technology. The film edge slitter shown has been specially designed for today's film industry that looks to tomorrow's technology for improved efficiency. The hard chrome plating is an excellent barrier of protection against abrasive films and provides low friction and high durability. Different options and application hardware are available as well as special design applications. Contact us for further details.
