FILM EDGE SLITTER

(RIGHT AND LEFT HAND MODELS AVAILABLE)

MODEL # D-241-2A-AC

HARD CHROME PLATING

WEAR-RESISTANT
CORROSION-RESISTANT
RESISTS FILM BLOCKING

UNIQUE 2 BLADE DESIGN

BLADE CHANGER
REDUCES SCRAP
HIGH EFFECENCY
SAFE BLADE CHANGES

AIR INJECTION SYSTEM

IMPROVED FLOW DESIGN
LOW FRICTION
NO FILM BLOCKING
DURABLE STEEL AIR LINE

DIMPLED SURFACE

REDUCES FRICTION

RAZOR BLADE OPTIONS

TITANIUM CARBIDE (STD.)
CERAMIC BLADE (OPT.)

Reynolds & Co. has over 50 years worth of plastic film edge slitting experience and has made numerous product updates to stay abreast the latest technology. The film edge slitter shown has been specially designed for today's film industry that looks for tomorrows technology for improved efficiency. The hard chrome plating is an excellent barrier of protection against abrasive films and provides low friction and high durability. Different options and application hardware is available as well as special design applications, contact us for further details.
